

Correction:

At time: 16:20-16:47 In lecture 4-3 video:

a(-);b(-):ectopic cell death

a $\dashv$  b $\dashv$  cell death

a(-);d(-): no cell death

d $\dashv$  a $\rightarrow$ cell death

d $\dashv$  a $\dashv$  b $\dashv$  cell death

2. The original 'positive arrow' from a to b should be a 'negative arrow'.

a actually 'negatively' regulates b
